Profile

As a front-end developer, I am well-versed in React and Next.js. I have a strong understanding of front-end development principles and a passion for creating engaging user experiences. I am a proactive problem solver who takes pride in delivering high-quality code and collaboration with others is essential to me. I am eager to continue developing my skills and making an impact in the industry.

Professional Experience

Front-End Developer, EnterERP

10/2021 – present
İstanbul, Türkiye

- Developed, maintained, and shipped e-commerce websites using TypeScript and Next.js. Played a crucial role in projects like Baxana [🔗](#) and Molimba [🔗](#), delivering high-quality and efficient solutions for thousands of users.
- Developed and shipped the official website for EnterERP [🔗](#) from scratch using Next.js and Tailwind. Implemented various SEO techniques to increase visibility and drive organic traffic to the website.
- Successfully transformed an e-commerce website into a B2B platform. Implemented new features, functionalities, and robust authentication mechanisms to protect all pages customized to the specific needs of B2B customers. Eralp Medical Store [🔗](#)
- Developed and implemented shipping and virtual POS payment integrations from different providers to create a shared API for consumers using TypeScript and Node.js.
